Document Number/Title:	Date Document Last Issued:
DOE/RL-98-19, Rev 0, *Surveillance and Maintenance Plan for the 202-S Reduction Oxidation (REDOX) Facility*	January 1999
Originator: Stuart Kretzschmar	**Phone:** 373-5941

Summary Discussion:

Currently, surveillances to the 202-S galleries, silo, electrical shop, offices and any other areas as identified in figures 2-2 through 2-16 of Surveillance and Maintenance Plan, are conducted on a quarterly basis, while the 202-S canyon is only entered for annual roof inspections. The changes consist of revising the surveillance and maintenance (S&M) plan to reflect the change from quarterly to annual surveillance for the areas other than the canyon. The 202-S canyon will continue to be entered only for roof inspections on a yearly basis.

The quarterly surveillances performed over the past years have provided extensive information about the interior of the REDOX Canyon and Service Facility, which includes all of the areas identified above. These areas have been surveyed on a quarterly basis for several years, and there is a sufficient body of data to show that no contamination spread has occurred or is expected to occur. Therefore, it is requested that the surveillance frequency be changed from quarterly to annual.

Justification and Impact of Change:

With this request, minor changes need to be made to the existing S&M plan for the 202-S Facility (DOE/RL-98-19). These changes are documented below:

1. Section 2.3.1, first bullet. Change the third sentence from "Installation and inspection of barriers and postings is conducted as part of the REDOX S&M activities and is performed on a quarterly basis...." To "Installation and inspection of barriers and postings is conducted as part of the REDOX S&M activities and is performed on an annual basis...."
2. Section 2.3.1, third bullet. Change the first sentence from "Quarterly surveillance activities include inspection of existing containers and sampling,..." to "Annual surveillance activities include inspection of existing containers and sampling,..."
3. Section 2.3.1, fourth bullet. Change first sentence from " The REDOX Facility is routinely surveyed on a quarterly basis for indications of spills of hazardous substances." To " The REDOX Facility is routinely surveyed on an annual basis for indications of spills of hazardous substances."
4. Section 9.0. Change "Quarterly surveillance $160K"
   to "Annual surveillance $40K"
