June 22

To whom it may concern:

What a great writing by John Stang!!

My husband and I (Ralph Olsen and Edythe Olsen) live at Prosser and have been very interested in B Reactor.
My brother (Stanley Ellis) lives in Spokane now but he helped build B Reactor during WW II.
All of us went to the 1st opening of the atomic age a few years ago & wer very impressed.
We like the wording of Gene Weisskof as the atomic age — also "significant spot on the planet" & liken it to the landing on the moon or the discovery of fire."
I am sending a page from the "Tri-City Heard" page B on June 22

Yours truly
Edye
