Change Title

Extend the due date for TPA Interim Milestone M-015-113, "Submit Draft B, *200-SW-2 Radioactive Landfills Group RFI/CMS/RI/FS Work Plan* to Ecology, including a schedule of completion dates for major tasks and deliverables."

Description/Justification of Change

TPA Interim Milestone M-015-113, "Submit Draft B, *200-SW-2 Radioactive Landfills Group RFI/CMS/RI/FS Work Plan* to Ecology, including a schedule of completion dates for major tasks and deliverables" requires resolution of regulator comments on Draft A into Draft B of the Work Plan. This milestone currently has a completion date of February 28, 2014. A new date was proposed by RL in November 2013. Ecology disapproved the change. The parties have been in discussions to develop a path forward.

Completion of this Work Plan is an essential component to the remedial strategy for the Central Plateau of the Hanford Site. Extension of the due date for this milestone to March 31, 2015 allows the comment resolution to be incorporated into the work plan and include incorporation of the Central Plateau cleanup principles and parameters.
