To whom it may concern:

Please reconsider your priorities at Hanford nuclear site. New waste must not be relocated to Hanford before the existing radioactive waste is contained, cleaned up, and secured from further advancing toward the Columbia River. Enforceable, specific milestones need to be created and followed through upon, ideally using the $12 billion stimulus funds allocated for clean-up. Increased funding means increased need for accountability. Let's finally move Hanford off the Superfund list by treating the backlog of Mixed Wastes and TRU. Thank you,

Ashley Braun, Seattle, WA
