ENCLOSURE 5

Laboratory Data Package

pace
INCORPORATED
THE ASSURANCE OF QUALITY

NOV 1 0 1992

Dear Valued Client:

Upon receipt of samples at a PACE laboratory, the laboratory's Sample Custodian completes a Sample and Analysis Data Entry Form (SADEF). This form is designed to acknowledge sample receipt and includes a short description of the samples (sample name and/or sample reference), the type of container, and a list of the analyses requested to be performed on each sample. A copy of this form is sent to the client (submitter).

Enclosed is a copy of the Sample and Analysis Data Entry Form relevant to the samples we recently received from you. Please review the information on the form to assure that it is consistent with your request. If there is any inconsistency or if you have any questions on your project, please call the PACE Contact indicated on the form. The PACE Contact has primary responsibility for monitoring the progress of your project through the laboratory.

It is also standard policy of PACE, Incorporated to return to the sample sponsor all samples that are potentially hazardous materials or potentially hazardous wastes at project completion.

Sincerely,

John G. Kroll
Manager, Client Services Dept.

SAMPLE CONDITION UPON RECEIPT CHECKLIST

Client: Washington State Dept. of Ecol
Project: D21102502
Date Received: 11/02/92
Samples Received By: DMB

1.	Is there a chain of custody (COC) or letter stating information contained on COC?	YES
2.	Is the date and time relinquished in agreement with that written on the letter or COC?	YES
3.	Do the samples received agree with the COC or accompanying paperwork (i.e. number of samples, matrices, sample tags, sample containers, analyses, etc.)?	YES
4.	Are all the samples within the holding times for requested analyses? Communicate any lapse of greater than 4 days beyond date of collection for VOA analysis.	YES
5.	Are all the sample containers intact (i.e., not broken, leaking, etc.)?	YES
6.	Are the sample at the proper temperature?	YES
7.	Is there enough sample to do all the analyses?	YES
8.	Are the samples preserved correctly?	YES
9.	Are the VOA vials head-space free?	YES

March 4, 1993

MAR 1993
RECEIVED

Ms. Billie Mauss
Washington State Department of Ecology
7601 W. Clearwater #102
Kennewick, WA 99336

Dear Ms. Mauss:

Enclosed are the raw data and chromatograms for PACE Project D21102502. Included in this package is information pertaining to the metals analyses, and the anions. If you have any questions, please contact PACE at (303)278-3400.

Sincerely,

Alexandra Trovas

GFAA ANALYTE COVER SHEET

DATE: 1/5/93

PROJECT ID: D21104.501
D21102.502

ANALYTE: As

INSTRUMENT: 1-A

ANALYST: MSR

REVIEWED BY: TC

DATA ASSESSMENT LOG

Encountered severe matrix interference which resulted in poor analytical spike recoveries. Samples were reanalyzed using MSA and dilutions as required by SOW.

THE ASSURANCE OF QUALITY

GFAA ANALYTE COVER SHEET

DATE: 12/31/92

PROJECT ID: D21104.501
D21102.502

ANALYTE: Se

INSTRUMENT: 1-B

ANALYST: MSR

REVIEWED BY: TC

DATA ASSESSMENT LOG

Encountered severe matrix interference which resulted in poor analytical spike recoveries. Samples were diluted and reanalyzed.
