Change Title:
Deletion of Hanford Federal Facility Agreement and Consent Order (HFFACO) Interim Milestone M-62-05.

Description/Justification of Change

Introduction

Following difficulties, which have delayed the authorization of construction of a Hanford Tank Waste Treatment Complex, DOE and Ecology have agreed that the requirement for award of a contract authorizing construction should be filed as an amendment of their existing Consent Decree No. CT-99-5076-EFS. This amendment having been entered, the Parties are now moving to delete its predecessor requirement, HFFACO interim milestone M-62-05.
