<b>Originator</b> Ray Corey		<b>Phone</b> 376-0108
<b>Class of Change</b> <input type="checkbox"/> I - Signatories <input checked="" type="checkbox"/> II - Executive Manager <input type="checkbox"/> III - Project Manager		
<b>Change Title</b> Addition of Production Reactors and Applicable Decision Documents to TPA Appendix J		
<b>Description/Justification of Change</b> Approval of this change control form incorporates the following changes into TPA Appendix J: <ol style="list-style-type: none"> <li>1. Adds DOE's production reactor buildings (specifically: 105-B, 105-C, 105-F, 105-D, 105-DR, 105-H, 105-KE, 105-KW, and 105/109-N buildings) as Tier 1 Facilities to TPA Appendix J. These changes were developed in conjunction with change control forms C-12-03 and P-08-16-01.</li> <li>2. Updates the TPA Appendix J Decision Documents column. This adds the Action Memorandum for Decontamination, Deactivation, Decommissioning, and Demolition (D4) Activities for 200 East Tier 2 Buildings/Structures (DOE/RL-2010-102) to the applicable facilities. Facility descriptions in TPA Appendix J were changed to match those in DOE/RL-2010-102.</li> <li>3. Adds Tier 2 facilities 211A and 276BA to TPA Appendix J, per change notice TPA-CN-722.</li> <li>4. Adds Tier 2 facility 215C to TPA Appendix J, per change notice TPA-CN-0750.</li> <li>5. Changes the Lead Regulatory Agency for 224B from EPA to Ecology and for 224T from Ecology to EPA, per change control forms M-85-16-02 and M-85-16-03.</li> </ol> <p>Beginning on the next page deletion of text from Appendix J is shown as <del>strikeout</del> and addition of text is shown as <u>double underline</u>.</p>		
<b>Impact of Change</b> No milestones are impacted by this change.		
<b>Affected Documents</b> Hanford Federal Facility Agreement and Consent Order, Appendix J.

APPENDIX J

Central Plateau Facilities and 100 Area Production Reactors

**Purpose and Description**

Appendix J, Central Plateau Facilities and 100 Area Production Reactors, is focused on Central Plateau facilities and 100 Area production reactors—~~facilities~~ that are anticipated to require a Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) response action for cleanup. The following information will be contained in Appendix J:

- Central Plateau facilities and 100 Area production reactors ~~facilities~~—determined by the Tri-Parties, in accordance with the Graded Approach process described in Section 8 of the Action Plan, to be subject to removal or remedial action under CERCLA. These facilities are identified as Tier 1 (facilities historically designated as "Key" in Section 8 of the Action Plan) or Tier 2 facilities. The lead regulatory agency will be defined corresponding with the lead regulatory agency for operable units located in the same geographic area as the facility or reactor, unless otherwise agreed to by EPA and Ecology.
- For Tier 1 facilities and reactors, DOE and the lead regulatory agency will make a determination whether the CERCLA response action will be a remedial action or a removal action. The column titled "Decision Document" will record that determination. The title of the approved decision document will be inserted in that column when it is issued.
- Central Plateau process or other inactive facilities that have not been evaluated as part of the graded approach described in Section 8 of the Action Plan are identified as To Be Determined (TBD). Following completion of the evaluation process, the facility or reactor type will be revised to Tier 1 or 2 for those that are determined to be subject to removal or remedial action under CERCLA. Facilities or reactors determined not to be Tier 1 or 2 will be removed from the Appendix J table.
- Facilities or reactors that contain a Resource Conservation and Recovery Act (RCRA) Treatment, Storage, and Disposal (TSD) unit are identified with a \*\* in the building number field.

The tables in Appendix J will be updated periodically in accordance with Tri-Party Agreement Section 12.0, *Changes to the Agreement*, to reflect the results of the graded evaluation process, and to identify decision documents as they are issued.

Facilities that are actively supporting cleanup are not listed in Appendix J. When these facilities are ready for disposition, they will be added to Appendix J, as appropriate.

**CENTRAL PLATEAU FACILITIES AND 100 AREA PRODUCTION REACTORS**

\*\* Facility contains a Treatment Storage and Disposal (TSD) unit.

<sup>a</sup> Designation is based on the fact that an EE/CA has already been developed and not on the results of the graded approach process.

<sup>b</sup> Designation was completed during development of the EE/CA for 200E Area Tier 2 Buildings/Structures (DOE/RL-2010-54), which constitutes the facility evaluation, as documented in the EE/CA.
