Hanford Remedial Action E.P.
DOE.

I strongly support your land use plan (preferred alternative) for continued protection of the Hanford Reach.

I sincerely hope that you include all of the public lands on the Wahluke Slope & to include the McGee Ranch, the Arid Lands Reserve and lands in the Reach for a National Wildlife Reserve.

It also seems to me that any further studies would be nothing but delays and further costs to the taxpayers.

Senator Patty Murray should be of some real help because she seems to have a genuine desire to preserve this National treasure rather than let it be tossed over to local County Commissioners with their local bias.
