Ms. Alexandra Smith, Program Manager
Nuclear Waste Program
Washington State Department of Ecology
3100 Port of Benton Boulevard
Richland, Washington 99354

Dear Ms. Smith:

HANFORD FACILITY RESOURCE CONSERVATION AND RECOVERY ACT (RCRA)
PERMIT UNDERGROUND PIPE MAPPING AND MARKING REPORT FOR 2016 (PERMIT
CONDITION II.U)

Enclosed is the annual notification of updates made to the Dangerous Waste Underground Pipeline Maps for the 2016 Reporting Period (March 31, 2015, through March 30, 2016) in accordance with the Hanford Facility RCRA Permit, WA7890008967 (Permit) Conditions II.U.3 and II.U.4. Copies of the maps are available via the Hanford Document Management and Control System and the SmartPlant® Foundation Document Control System.

As noted in the submittals for 2003 through 2015, a portion of the 200 East Area boundary fence remains down, in support of the Waste Treatment and Immobilization Plant construction. This portion of fence has been marked as required by Permit Condition II.V to identify the location of the underground pipeline associated with the 216-B-3 Pond. When the fence is replaced and new boundaries are established, the 216-B-3 Pond pipeline markings will be reviewed to ensure compliance with Permit Condition II.V.

If you have any questions, please contact me, or your staff may contact Jeffrey A. Frey, Assistant Manager for Safety and Environment, on (509) 376-7727.

Sincerely,

Doug S. Shoop
Manager
