Ms. J. A. Hedges, Program Manager
Nuclear Waste Program
State of Washington
Department of Ecology
3100 Port of Benton Blvd.
Richland, Washington 99354

Dear Ms. Hedges:

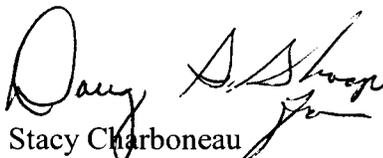

CORRECTED INFORMATION REGARDING T PLANT 221-T CELLS DANGEROUS WASTE MANAGEMENT UNIT TO SATISFY HANFORD FACILITY DANGEROUS WASTE PERMIT CONDITION I.E.20

Please reference U.S. Department of Energy Richland Operations Office (RL) letter to you, "Response to Consent Agreement and Final Order Concerning (CAFO) the Submittal of Closure Plans for Closing Dangerous Waste Management Units (DWMUs)," 13-ESQ-0074, dated October 11, 2013.

In accordance with Permit Condition I.E.20, this letter provides corrected information regarding the T Plant 221-T Cells Dangerous Waste Management Unit (DWMU) described in the Part A Permit Application attached to the above referenced letter. Additional review of T Plant dangerous waste inventory information has revealed that the subject submittal incorrectly described the 221-T Cells DWMU. Cell 16R should have been included along with cells 7L, 13R, and 17R as part of the 221-T Cells DWMU. Discussions are ongoing between RL and the Washington State Department of Ecology regarding other changes to the Part A applications. Following resolution of those issues, RL will provide an updated T Plant Part A application reflecting the results of those discussions as well as changes due to the addition of Cell 16R to the 221-T Cells DWMU.

If you have any questions, please contact me, or your staff may contact, Ray Corey, Assistant Manager for the River and Plateau, on (509) 373-9971.

Sincerely,

Stacy Charboneau
Manager
