Dear Commenters:

The U.S. Department of Energy (DOE) and the U.S. Environmental Protection Agency (EPA) appreciate your feedback and thank you for your comments on the Proposed Plan for the remediation of the 100-FR-1, 100-FR-2, 100-FR-3, 100-IU-2, and 100-IU-6 Operable Units. A Record of Decision (ROD) for these operable units was signed by DOE and EPA on September 30, 2014. The approved ROD is available at <http://pdw.hanford.gov/arpir/index.cfm/viewDoc?accession=0083577>.

Attached is a compact disk of the ROD.

Your comments, as well as other comments received on the Proposed Plan, were considered before finalizing the cleanup decision identified in the ROD. Part III of the ROD is the Responsiveness Summary, which summarizes the public comments received on the Proposed Plan and provided responses. Appendix A provides the comments themselves.

Thank you again for your interest in Hanford cleanup.

If you have any questions, please contact us, or your staff may contact Ray Corey, Assistant Manager for the River and Plateau, on (509) 373-9971.
