TRI-PARTY AGREEMENT

Change Notice Number TPA-CN- 595	TPA CHANGE NOTICE FORM	Date: 11/07/2013
Document Number, Title and Revision: DOE/RL-2004-18, *Waste Control Plan for the 200-PO-1 Operable Unit*, Revision 1.		Date Document Last Issued: June 2008
Originator: Rick Oldham		Phone: 372-2426

Description of Change:

Add two M-024 monitoring wells, to be drilled at the Solid Waste Landfill, to the Waste Control Plan for the 200-PO-1 Operable Unit.

B. L. Charboneau (**DOE**) and N. Menard (**Lead Regulatory Agency**) agree that the proposed change modifies an approved workplan/document and will be processed in accordance with the Tri-Party Agreement Action Plan, Section 9.0, *Documentation and Records,* and not Chapter 12.0, *Changes to the Agreement.*

Deleted text is shown in ~~strikethrough~~, added text is shown in double underline.

The "200-PO-1 Waste Control Plan Well Identification List" is included on the first two pages of DOE/RL-2004-18, Appendix A, pages A-1 and A-2. It appears that it is inadvertently mislabeled as Table A-2. Table A-2, "The 200-PO-1 Groundwater Operable Unit Aquifer Tubes" is located on Page A-5 of the document. Therefore, this change notice corrects the label of the table for the well identification list in Appendix A as Table A-1.

Two M-024 monitoring wells [699-24-36 (C8772)] and [699-25-38 (C8774)] are added to Table A-1, "200-PO-1 Waste Control Plan Well Identification List" in DOE/RL-2004-18, *Waste Control Plan for the 200-PO-1 Operable Unit*. Revised Table A-1 and a location plat for the M-024 wells are provided (this location plat is not a part of DOE/RL-2004-18). The plat map is included in this change notice to identify the location of the two new wells

[Note that well [699-25-34E (C8200)], which also appears on the location plat, was previously added to the Waste Control Plan for the 200-PO-1 Operable Unit under TPA Change Notice #408.]

Justification and Impacts of Change:

The wells are being installed pursuant to Tri-Party Agreement Milestone M-024. This change will be reflected in the next revision to DOE/RL-2004-18, *Waste Control Plan for the 200-PO-1 Operable Unit.*
