Ms. J. A. Hedges, Program Manager
Nuclear Waste Program
State of Washington
Department of Ecology
3100 Port of Benton
Richland, Washington 99354

Dear Ms. Hedges:

**200-IS-1 OPERABLE UNIT PIPELINE SYSTEM WASTE SITES RFI/CMS/RI/FS WORK
PLAN, DOE/RL-2010-114, DRAFT A**

This letter transmits the 200-IS-1 Operable Unit Pipeline System Waste Sites RFI/CMS/RI/FS Work Plan, DOE/RL-2010-114, Draft A for your review and comment.

This Work Plan describes the Comprehensive Environmental Response, Compensation, and Liability Act Remedial Investigation/Feasibility Study (RI/FS) activities to be performed in order to evaluate and select remedial alternatives for the 200-IS-1 Operable Unit pipeline system waste sites located within the Inner Area of the Central Plateau at the Hanford Site. Remedial actions for pipeline system waste sites are required to incorporate the Resource Conservation and Recovery Act (RCRA) corrective action process and apply the RCRA closure process to pertinent treatment, storage, and disposal units and associated ancillary equipment.

If you have any questions, please contact me, or your staff may contact, Briant Charboneau, of my staff, on (509) 373-6137.

Sincerely,

A handwritten signature in black ink that reads "Jonathan A. Dowell".

Jonathan A. Dowell, Assistant Manager
for the Central Plateau
