CASE NARRATIVE

CH2M Hill Plateau Remediation Company
 P.O. Box 1600
 MSIN B6-06
 Richland, Washington 99352
 February 24, 2009
 Attention: Mike Neely

SDG	:	SL775A
Number of Samples	:	1
Sample Matrix	:	Water
Data Deliverable	:	RDR-R5432
Date SDG Closed	:	February 10, 2008

II. Introduction

On February 10, 2008 data reanalysis orders were received at TestAmerica St. Louis.

III. Analytical Results/ Methodology

The analytical results for this report are presented by analytical test. Each set of data includes sample identification information, analytical results and the appropriate detection limits.

Analyses requested: see attached copies of RDRs

Deviation from Request: No Deviation from requested methods.

IV. Definitions

The following codes are used to denote laboratory quality control samples and can be found in the data summary section of this report:

QCBLK- Quality Control Blank, Method Blank

QCLCS- Quality Control Laboratory Control Sample, Blank Spike

V. Comments

General: The re-analysis request consists of RDR# 090210TASL-R5432. Copies of the requests are included in this package for reference.

Page 2

TestAmerica Laboratories, Inc.

The term "Detection Limit" used in the analytical data reports refers to either the lab's standard reporting limits or contractually required reporting limits, whichever is applicable.

Oil and Grease Results: The reanalysis of the sample yielded a comparable result to the original analysis.

Analysis Comments: The sample was re-analyzed outside the hold time. The results are comparable with the original analysis.

Oil and Grease was detected above the MDL but below the RL in the Method Blank.

The LCS recoveries are outside the upper QC limit, indicating a potential positive bias for that analyte. This analyte was not observed above the reporting limit in the associated sample; therefore the sample data was not adversely affected by this excursion. The sample was consumed and cannot be re-analyzed, however results are consistent with the previous run data on the same sample.

I certify that this Summary Package is in compliance with the SOW, both technically and for completeness, for other than the conditions detailed above. The Laboratory Manager or a designee, as verified by the following signature has authorized release of the data contained in this hard copy data package.

F9B120215

<u>WO #</u>	<u>SAMPLE#</u>	<u>CLIENT SAMPLE ID</u>	<u>SAMPLED DATE</u>	<u>SAMP TIME</u>
K6444	001	B1Y018	12/18/08	11:15

NOTE(S) :

- The analytical results of the samples listed above are presented on the following pages.
- All calculations are performed before rounding to avoid round-off errors in calculated results.
- Results noted as "ND" were not detected at or above the stated limit.
- This report must not be reproduced, except in full, without the written approval of the laboratory.
- Results for the following parameters are never reported on a dry weight basis: color, corrosivity, density, flashpoint, ignitability, layers, odor, paint filter test, pH, porosity pressure, reactivity, redox potential, specific gravity, spot tests, solids, solubility, temperature, viscosity, and weight.
