

Waste Site Reclassification Form

Date Submitted: 05/12/2008	Operable Units: 200-UR-1	Control Number: 2008-036
Originator: CR Webb/CD Wollam	Waste Site ID: UPR-200-W-85	
Phone: 373-5573	Type of Reclassification Action:	
	Closed Out: <input type="checkbox"/> Interim Closed Out: <input type="checkbox"/>	
	No Action: <input type="checkbox"/> RCRA Postclosure: <input type="checkbox"/>	
	Rejected: <input checked="" type="checkbox"/> Consolidated: <input type="checkbox"/>	

This form documents agreement among parties listed authorizing classification of the subject unit as Closed Out, Interim Closed Out, No Action, RCRA Postclosure, Rejected, or Consolidated. This form also authorizes backfill of the waste management unit, if appropriate, for Closed Out and Interim Closed Out units. Final removal from the NPL of No Action and Closed Out waste management units will occur at a future date.

Description of Current Waste Site Conditions:

(Summarize status of investigation/remediation of the waste sites.)

In April 1982, a multi-purpose transfer box was moved from the 221-T railroad cut to the cement pad behind the 2706-T Building. While parked on the pad, liquid was observed dripping from the box. The apparent cause of the leak was a weld failure on the outside sheathing covering the concrete shell. Contamination levels up to 100,000 counts per minute were found on the ground. The contamination was cleaned up at the 2706-T pad area. The railroad track from the 2706-T Building to the 221-T railroad cut was surveyed and no contamination was detected. The cement pad was decontaminated in 1982. A new building (2706-TA) was constructed on top of the cement pad. The release is not physically marked or posted.

Basis for Reclassification:

(For closeout, reference supporting documentation, as listed in Table 3.)

UPR-200-W-85 was reclassified to No Action in 2004. This site is listed on Table A-2a, 200-UR-1 Operable Unit Waste Sites That are Identified as Rejected or No Action, DOE/RL-2004-39, Rev. 0, 200-UR-1 Unplanned Release Waste Group Operable Unit Remedial Investigation/Feasibility Study Work Plan. In 2007 the definitions for "Rejected" and "No Action" were revised. The classification of this site should be changed to "Rejected" to align with the revised definitions in the TPA-MP-14 procedure.

Waste Site Controls

Engineered Controls: Yes No Institutional Controls: Yes No O&M requirements: Yes No

If any of the Waste Site Controls are checked Yes specify control requirements including reference to the Record of Decision, TSD Closure Letter, or other relevant documents.
