

Waste Site Reclassification Form

Date Submitted: 05/12/2008	Operable Units: 200-UR-1	Control Number: 2008-037
Originator: CR Webb/ CD Wollam	Waste Site ID: UPR-200-W-91	
Phone: 373-5573	Type of Reclassification Action:	
	Closed Out: <input type="checkbox"/> Interim Closed Out: <input type="checkbox"/>	
	No Action: <input type="checkbox"/> RCRA Postclosure: <input type="checkbox"/>	
	Rejected: <input checked="" type="checkbox"/> Consolidated: <input type="checkbox"/>	

This form documents agreement among parties listed authorizing classification of the subject unit as Closed Out, Interim Closed Out, No Action, RCRA Postclosure, Rejected, or Consolidated. This form also authorizes backfill of the waste management unit, if appropriate, for Closed Out and Interim Closed Out units. Final removal from the NPL of No Action and Closed Out waste management units will occur at a future date.

Description of Current Waste Site Conditions:

(Summarize status of investigation/remediation of the waste sites.)

The release is documented on Off Normal/Radiation Occurrence report 12-85-80. The release occurred on December 11, 1985. A pallet jack was being used to transport a supposedly empty can from a storage area to the 234-5Z Building. While traveling over the ice and snow, the can overturned, spilling alpha contamination liquid onto the ground. The total contaminated area was reported as 0.6 meters by 1.8 meters (2 feet by 6 feet). The area was covered with plastic and decontaminated to 2,000 disintegrations per minute. The site can no longer be located, indicating that the remaining contamination was removed so the posting could be removed.

Basis for Reclassification:

(For closeout, reference supporting documentation, as listed in Table 3.)

UPR-200-W-91 was Reclassified to No Action in 2005. This site is listed on Table A-2a, 200-UR-1 Operable Unit Waste Sites That are Identified as Rejected or No Action, DOE/RL-2004-39, Rev. 0, 200-UR-1 Unplanned Release Waste Group Operable Unit Remedial Investigation/Feasibility Study Work Plan. In 2007 the definitions for "Rejected" and "No Action" were revised. The classification of this site should be changed to "Rejected" to align with the revised definitions in the TPA-MP-14 procedure.

Waste Site Controls

Engineered Controls: Yes No Institutional Controls: Yes No O&M requirements: Yes No

If any of the Waste Site Controls are checked Yes specify control requirements including reference to the Record of Decision, TSD Closure Letter, or other relevant documents.
