## Certificate of Analysis

Washington Hanford Closure  
2620 Fermi Avenue  
Richland, WA 99354

September 16, 2008

Attention: Joan Kessner

---

SAF Number	:	RC-030
Date SDG Closed	:	September 15, 2008
Number of Samples	:	One (1)
Sample Type	:	Other Solid
SDG Number	:	J00195
Data Deliverable	:	15-Day / Summary

---

### CASE NARRATIVE

#### I. Introduction

On September 15, 2008 one other solid sample was received at TestAmerica for chemistry analysis. Upon receipt, the sample was assigned the following laboratory ID number to correspond with the Washington Closure Hanford (WCH) specific ID:

<u>WCH ID#</u>	<u>TALR ID#</u>	<u>MATRIX</u>	<u>DATE OF RECEIPT</u>
J17FM5	KWXAQ	OTHER SOLID	9/15/08

#### II. Sample Receipt

The sample was received in good condition and no anomalies were noted during check-in.

#### III. Analytical Results/Methodology

The analytical results for this report are presented by laboratory sample ID. Each set of data includes sample identification information, analytical results and the appropriate associated statistical errors. The requested analyses were:

**Chemical Analysis**  
Hexavalent Chromium by EPA method 7196A

Washington Closure Hanford  
September 16, 2008

---

**IV. Quality Control**

The analytical results for each analysis performed includes a minimum of one laboratory control sample (LCS), one method (reagent) blank, and one duplicate sample analysis. Any exceptions have been noted in the "Comments" section.

QC and sample results are reported in the same units.

**V. Comments**

**Chemical Analysis**

Hexavalent Chromium by EPA method 7196A:

When colorizing sample J17FM5 and the insoluble spike for J17FM5, a white precipitation formed. Due to the precipitation, results were not obtainable. The blank and LCS were acceptable therefore the samples were analyzed correctly.

On 9/16/08 the client called and requested TestAmerica to analyze a pH on this sample. TestAmerica informed the client that the sample was similar to a rock. The client instructions were to dampen a pH strip with DI water, then hold the pH strip against the sample. TestAmerica followed these instructions. There was no change to the pH strip. The client was informed by email on 9/16/08 that the pH could not be determined.

I certify that this Certificate of Analysis is in compliance with the SOW, both technically and for completeness, for other than the conditions detailed above. Release of the data contained in this hard copy data package has been authorized by the Laboratory Manager, or a designee as verified by the following signature.
