Dan McDonald (Ecology) reported that he has completed a review of all the addendums, the permit conditions and the statement of basis for the WRAP permit. Next week Ecology will review the Part I and II conditions, and then finalize a template for the SWOC permits (Part III conditions) which will then

undergo an internal review. Tony Miskho (CHPRC) noted that RL/CHPRC received the Part I and II conditions from Ecology in April 2009 and conducted a review. The review generated numerous comments which have not been provided to Ecology because Ecology indicated it was still working on the Part I and II conditions at that time. Deborah Singleton (Ecology) indicated that she would convey the message within Ecology regarding those comments.
