This form documents agreement among parties listed authorizing classification of the subject unit as Closed Out, Interim Closed Out, No Action, RCRA Postclosure, Rejected, or Consolidated. This form also authorizes backfill of the waste management unit, if appropriate, for Closed Out and Interim Closed Out units. Final removal from the NPL of No Action and Closed Out waste management units will occur at a future date.

Description of Current Waste Site Conditions:

(Summarize status of investigation/remediation of the waste sites.)

This site was designated for future use. It was designed to contain 27 unlined trenches and one lined trench. No waste has been placed in this site. It is currently posted with routine TSD warning signs.

Basis for Reclassification:

(For closeout, reference supporting documentation, as listed in Table 3.)

A thorough investigation of the unused area included reviews of the Solid Waste Information and Tracking System database (SWITS), Hanford site drawings, aerial radiological survey data and historical photographs. Physical site walkdowns, geophysical surveys and personnel interviews were also done. Based on the results of this investigation, no waste was found in this portion of land (SGW-48278).
