Change Title Extend Interim Milestone M-037-03, "Submit Revised Closure Plans to support TSD closure for two (2) TSD Units: 216-B-3 Main Pond System, and 216-S-10 Pond and Ditch" due date to April 30, 2013.		
Description/Justification of Change Approval of this change form delays M-037-03 Interim Milestone by 12 months. The M-037 milestone dates were aligned with M-015 series milestones included in Change Package M-15-09-02 as part of the negotiation of the Central Plateau Strategy, which was finalized during Fiscal Year 2010. Subsequently, the associated M-015-38B interim milestone for submittal of a revised Feasibility Study Report and Proposed Plan for the Outer Area Operable Units was extended by change package M-15-11-04. At that time, DOE and Ecology did not extend the M-037-03 date for submittal of the two associated Outer Area TSD unit closure plans. <i>continued on page 2</i>		
Impact of Change This change package extends M-037-03 interim milestone to April 30, 2013. This will allow DOE to plan for this activity during FY 2013. This extension does not affect the remaining M-037 milestones due dates.		
Affected Documents The Hanford Federal Facility Agreement and Consent Order, as amended, and Hanford Site internal planning management, and budget documents (e. g., USDOE and USDOE contractor Baseline Change Control documents; Project Management Plans).

Description/Justification of change, continued

Due to efforts needed by the agencies to support other priorities, such as the sitewide dangerous waste permit, Ecology and DOE now agree to extend the completion date for Milestone M-037-03 to April 30, 2013. RL will submit two closure plans to support TSD closure for 216-B-3 Main Pond System, and 216-S-10 Pond and Ditch to Ecology by April 30, 2013.

Modifications to the interim milestone are denoted by the use of ~~strikeout~~ to indicate text to be deleted and double underline to indicate text to be added.
