Dear Mr. Skinnarland:

HANFORD FACILITY NONCOMPLIANCE REPORT FOR CALENDAR YEAR (CY) 2012
(PERMIT CONDITION I.E.19)

This letter serves as the Hanford Facility Noncompliance Report for CY 2012, submitted to meet the March 1, 2013, due date specified in Hanford Facility Resource Conservation and Recovery Act Permit, WA7 89000 8967 (Permit) Condition I.E.19. Permit Condition I.E.19 states: "The Permittees shall report to Ecology all instances of noncompliance, not otherwise required to be reported elsewhere in this Permit, at the time the Annual Dangerous Waste Report is submitted." This Permit condition is interpreted to mean instances of noncompliance with the Permit, associated with treatment, storage, and/or disposal units incorporated in Revision 8C of the Permit. Noncompliance's with the Permit conditions alleged by the State of Washington, Department of Ecology or reported by the Permittees through Notices of Violation, Notices of Correction, Inspection Reports, Project Manager Meeting Minutes, or other written correspondence are excluded from this report.

There was one noncompliance to report for CY 2012. Provided below is information regarding the noncompliance:

The waste inventory in the operating log of 400 Area Waste Management Unit (OUG-16) was identified as incomplete. Consistent with Permit Condition III.16.D.2, an updated "Operations Log" for the 400 Area Waste Management Unit's Interim Storage Area (ISA) was provided to the State of Washington, Department of Ecology personnel on May 16, 2012, and placed in the facility operating record. The updated log identifies the containers stored within the ISA conex box, including the assignment of new container identification numbers for some containers to provide improved container tracking.
