Mr. R. E. Gerton, Director
Waste Management Division
U.S. Department of Energy
Richland Operations Office
Richland, Washington 99352

Dear Mr. Gerton:

RESOURCE CONSERVATION AND RECOVERY ACT INTERIM STATUS ASSESSMENT-NON-RADIOACTIVE DANGEROUS WASTE STORAGE FACILITY

As part of the effort initiated by Westinghouse Hanford Company (WHC) to determine the status of facility operations with respect to the Resource Conservation and Recovery Act (RCRA), the review of the Non-radioactive Dangerous Waste Storage Facility (616) is now complete. The purpose of the effort was to document areas of compliance and determine areas where specific actions are required.

The final draft of "RCRA Interim Status Assessment, Part A Facilities, 616 Non-Radioactive Dangerous Waste Storage Facility" is attached. The report was prepared for WHC by environmental consultants. The consultants' report reflects the environmental status of 616 during the specific point in time when the field work was performed.

Attached is the letter that will transmit the report from the U.S. Department of Energy-Richland Operations Office (DOE-RL) and WHC to the Washington State Department of Ecology (Ecology) and the U.S. Environmental Protection Agency (EPA). Included with that letter is a copy of the action schedule that WHC has developed to address the items identified in the report. Both documents will be bound in the front of the report following DOE-RL approval. Presently, all scheduled actions can be addressed within the existing budget and all actions are scheduled to be complete by September 1989.

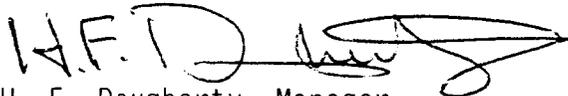

The report is scheduled to be transmitted to the EPA and Ecology on December 16, 1988. Prior to transmittal, the report must be cleared for public release. Please have the appropriate individual sign the second page of the Document Clearance Form under the DOE Program Sponsor and return the form to B. G. Erlandson (6-7776) by December 14, 1988.

Mr. R. E. Gerton

If you have any questions about the report or associated material, please contact G. T. Dukelow or B. G. Erlandson on 373-4479 or 376-7776, respectively.

Very truly yours,

H. F. Daugherty, Manager
Defense Waste Management Division
