Re: Ecology response to letter 15-AMRP-0261, dated July 20, 2015 from Ray J. Corey, USDOE-RL to J.A. Hedges, Department of Ecology "200-SW-2 Radioactive Landfills Group Operable Unit RCRA Facility Investigation/Corrective Measures Study/Remedial Investigation /Feasibility Study Work Plan, DOE/RL-2004-60, Draft B," Request for Extension for Comment Response and Document Updates

Dear Mr. Corey:

The Department of Ecology (Ecology) agrees to the United States Department of Energy, Richland Operations Office (USDOE-RL), request to extend the comment period in accordance with Section 9.2 of the Hanford Federal Facilities Agreement and Consent Order, 89-10, Rev 8. The project staff are very satisfied with the progress in developing this document and we look forward to finalizing the work. However, the integration of the Inner Area Principles needs to be resolved to make this possible.

Ecology will continue to meet with USDOE-RL staff, and we look forward to the receipt of the document by October 22, 2015.

If you have any questions, please contact Deborah Singleton, Project Manager, Waste Management Section at [deborah.singleton@ecy.wa.gov](mailto:deborah.singleton@ecy.wa.gov) or (509) 372-7923.

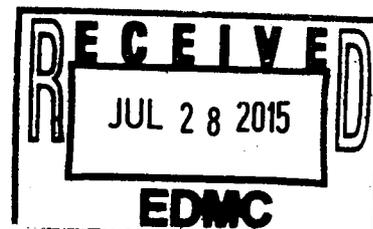

Sincerely,

*J.A. Hedges by ER Skinnerland.*
