Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes

The May 16, 1995, Unit Managers Meeting minutes were approved and signed. There are no outstanding Unit Managers Meeting minutes. No Unit Managers Meeting was held during June of 1995.

2. Status Action Items

- 4-14-93:1 Add information to the Administrative Record

Closed. It was agreed that this action item would be closed. The topic will be discussed under closure activities as information is added to the Administrative Record.

3. Status Closure Activities

- Status of Revising the Closure Plan

WHC (ZC Knaus) reported that revision of the closure plan was progressing steadily and should be ready for a concurrent DOE and Westinghouse review in the next couple of weeks.

4. New Business

- Alternate Analytical Method

WHC (ML Myers and KJ Young) discussed Ion Chromatography, EPA Method 300.7 and its possible use as a quick turnaround method to analyze sweepings generated within the 4843 building. Ecology, DOE, and WHC agreed that this would be acceptable for 4843. All parties agreed that the sampling activities would occur at 9 a.m. on July 20, 1995. Hanford Site Background levels were agreed upon for action levels. The Hanford Site Background level for sodium is 1390 ppm; the level for lithium is 37 ppm. If it is determined that the sweepings are found to contain concentrations higher than the above-mentioned action levels, it will be managed as a dangerous waste. However, if the concentrations found in the sweepings are below action levels, the sweepings will no longer be considered dangerous waste.

- Letter on Reduction of Weekly Inspections

Ecology (GP Davis) stated that the letter on reduction of inspections letter had been received. She went on to say the letter was

9513383.1166

acceptable and indicated that there would be no problem with reducing the frequency of inspections at 4843 AMSF. DOE and Westinghouse should expect to receive a reply to the letter in about a week.

5. Set Next Meeting Date

The next meeting has been set for August 8, 1995, from 1:00 pm to 2:00 pm, 2440 Stevens Center, Rm. 2519 in Richland, Washington.
