Office of Toxic Substances TS-798  
U.S. Environmental Protection Agency  
401 M Street, Southwest, Room NE-117  
Washington, DC 20460

Dear Mr. Elkins:

### NOTIFICATION OF POLYCHLORINATED BIPHENYL WASTE ACTIVITY

The final rule for Notification and Manifesting for Polychlorinated Biphenyl (PCB) Waste Activities, published in the Federal Register on December 21, 1989, (Volume 54, No. 244, Pages 52716 to 52756), requires submittal of the attached Notification of PCB Activity by April 4, 1990. This notification is submitted to satisfy the requirements of Regulation 40 CFR 761.205(c)(2)(i) which applies to "Generators storing PCB waste subject to the storage requirements of 40 CFR 761.65(b)." The following locations within the Hanford Site are used to store PCBs:

| LOCATION  | ACTIVITY  |
|---|---|
| 616 Nonradioactive Dangerous Waste Storage Facility | PCB and hazardous waste storage                                       |
| 305-B Building                                      | PCB and hazardous waste storage                                       |
| Hanford Central Waste Complex                       | PCB and hazardous waste storage                                       |
| Low-level Burial Grounds<br>218-E-12B Trench 94     | PCB and dangerous waste storage, and proposed chemical waste landfill |
| 212-P Building                                      | PCB storage.  |

All but one of these locations are also subject to Resource Conservation and Recovery Act regulations and fall under the single U.S. Environmental Protection Agency/State identification number which has been assigned to the Hanford Site. The U.S. Department of Energy, Richland Operations Office has therefore elected to use this identification number on the enclosed notification form in accordance with Regulation 40 CFR 761.202(a).
