Dear Messrs. Rasmussen and Dixon:

This letter is in response to your letter regarding the Hanford Facility Dangerous Waste Permit Application, Part A, Form 3, Revision 0 for the Sodium Storage Facility and Sodium Reaction Facility (SSF and SRF), dated May 22, 1995. 41295

The Part A, Form 3 for the SSF and SRF was found to be complete and accurate, and no further action is necessary. This expansion of the Hanford Facility under interim status is initiated to comply with the requirements set forth by the Tri-Party Agreement (TPA) negotiations for the Fast Flux Testing Facility (FFTF) transition.

If you have any questions, please call Clinton Stuart at (509) 736-3010.

Sincerely,

Moses Jaraysi, Permitting Team Leader
Nuclear Waste Program
