Dear Ms. Mattlin:

Re: Close-out of Notice of Deficiencies for the 304 Concretion Facility Closure Plan 41025

The above closure plan has been through several rounds of Notice of Deficiency (NOD) and NOD Response Table exchanges. During the course of these exchanges and parallel meetings by the Unit Managers, the outstanding issues surrounding completion of the Closure Plan have been resolved. Resolution of these comments was satisfactorily addressed in your latest transmittal to Ecology titled, "Close-out of the 304 Concretion Facility Closure Plan Notice of Deficiency Comments (TS3-2, M-20-15 and in previous correspondence between Ecology and DOE.

Ecology is formally notifying you that we concur with your letter, and consider all outstanding issues regarding previous NOD's to be resolved. The 304 Concretion Facility Closure Plan is considered complete. Formal approval of the Closure Plan will not occur until after completion of the public review cycle and permit modification process.

If you have any questions regarding the completeness of the NOD Response Table, or the Permit modification process, please contact me at (360) 407-7146.

Sincerely,

Scott E. McKinney  
304 Concretion Facility Unit Manager
