Mr. Douglas R. Sherwood
Hanford Project Manager
U.S. Environmental Protection Agency
712 Swift Boulevard, Suite 5
Richland, Washington 99352

Dear Messrs. Alexander and Sherwood:

TRANSMITTAL OF DOE/RL-93-46, RCRA FACILITY INVESTIGATION/CORRECTIVE MEASURES STUDY WORK PLAN FOR THE 100-DR-2 OPERABLE UNIT, HANFORD SITE, RICHLAND, WASHINGTON, REVISION 2

Attached are five copies of the subject document. This submittal constitutes the final version and meets the intent of the May 26, 1995, Hanford Federal Facility Agreement and Consent Order target milestone (M-13-09) to issue the 100-DR-2 Work Plan, incorporating the Limited Field Investigation/Qualitative Risk Assessment (LFI/QRA) as an addendum.

Public review of the Work Plan was completed in March 1995, with no comments being submitted. The LFI/QRA has been appended to the Work Plan and incorporates regulator comments received on March 16, 1995. Also included as an addendum, per the State of Washington Department of Ecology's request, is a list of sites not originally identified as being with the 100-DR-2 Operable Unit. These sites were identified during the preparation of the 100-D Area Technical Baseline Report.

If you have any question, please contact Ms. A. C. Tortoso at 373-9631.

Sincerely,

[Handwritten Signature]
for K. M. Thompson
Hanford Project Manager
