712 Swift Boulevard, Suite 5
Richland, Washington 99352

Mr. Roger F. Stanley, Director
Tri-Party Agreement Implementation
State of Washington
Department of Ecology
P.O. Box 47600
Olympia, Washington 98504-7600

Dear Messrs. Sherwood and Stanley:

TRANSMITTAL OF THE 100N AREA PILOT PROJECT MANAGEMENT PLAN

References:

- (1) RL ltr. to D. R. Sherwood, EPA, and R. F. Stanley, Ecology, from P. W. Willison, same subject as above (Ltr. No. 94-FDB-020), dtd. May 31, 1994. *36521*
- (2) Ecology ltr. to S. H. Wisness, RL, from P. R. Staats, "100N Area Pilot Project Management Plan Draft Dated May 26, 1994," dtd. January 20, 1995.

Pending finalization of 100N Area Pilot Project negotiations, a draft 100N Area Project Management Plan was submitted to the U.S. Environmental Protection Agency and the State of Washington, Department of Ecology, for review and comment on May 31, 1994, as was agreed to by the three parties in the draft Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement) Change Request M-15-94-04. The transmittal letter incorrectly stated that the final draft of the document would be issued thirty days after receipt of your comments. The correct due date for proposed Tri-Party Agreement Milestone M-15-12D is 45 days after receipt of regulator comments. Your comments (Reference 2) were received on January 30, 1995; therefore the final document will be issued by March 16, 1995.

Subsequent to the draft 100N Area Pilot Project Management Plan being submitted to you in May 1994 (Reference 1), the management of 100N Area Pilot Project has been restructured. The revised plan will, therefore, contain some new information in order to reflect the current organizational structure.

Messrs. Sherwood and Stanley
