Attachment 2

**Unit Managers Meeting
105-DR LARGE SODIUM FIRE FACILITY
Federal Bldg., Rm 784B
Richland, Washington**

**Meeting Held October 13, 1994
From 10:00 am to 11:30 am**

Summary of Discussion and Commitments/Agreements**1. Approval of Past UMM Minutes**

The July 6, 1994, August 25, 1994, and September 23, 1994 meeting minutes have been approved, but haven't been signed at this time.

2. Status Action Items**- 9-20-94:1 Provide redline strike-out changes**

Closed 10/13/94. Ecology (SE McKinney) provide WHC (ZC Knaus) with comments on Sections 6.4 and 7.3 of the 105-DR Closure Plan on 10/12/94.

- 9-20-94:2 Provide information on funding during fiscal year 1995.

Closed 10/13/94. WHC RCRA Closure Unit (ZC Knaus) stated that funding will be available during FY '95. If any further questions exist on funding WHC 105-DR Contractor Representative (JA Seamans) can be contacted.

3. Status Closure Activities**- Redline strike out changes**

Redline strike out changes have been received by WHC (ZC Knaus) from GSSC (JK Bartz). Ecology (SE McKinney) provided redline strike changes to WHC (ZC Knaus) on October 12, 1994. They will now be incorporated into the closure plan.

4. New Business**- Status of Logbook for discharges to 116-DR-8 Crib**

Ecology (SE Mckinney) asked the status of locating the logbook for the 116-DR-8 Crib during the September 23, 1994 UMM. He is hoping to use the logbook to show that the crib hasn't been used for dangerous waste discharges. If this is true he is interested in pursuing the possibilities of removing the crib from the unit. WHC (ZC Knaus) was able to find records for the period from November 1980 to October 1987. As stated in at the July 7, 1994 UMM the logbook will be reference but will not be included in the closure plan.

- Permit condition for post closure activities

Ecology (SE McKinney) expressed interest in developing a permit condition that will address the fact that there will be a partial clean closure for the 105-DR LSFF. This permit condition will take the place of a post closure plan, covering the time frame when 105-DR LSFF is closed and the rest of the unit is closed. It will ensure that certain activities occur during the interim time period. These activities would include controlling access as well as routine inspections of the 105-DR LSFF. Ecology will be responsible for getting the permit condition started and wanted to give WHC forewarning of this up coming condition.

5. Set Next Meeting Date

The next UMM will be held on November 22, 1994, Federal Bldg., Rm 784B, Richland, Washington.
