From 3:00 to 4:00 p.m.**

**Summary of Discussion and Commitments/Agreements****1. Approval of Past UMM Minutes**

The minutes were not available for signature during this meeting. The August 1994 UMM minutes are currently undergoing WHC and RL review.

Ellen Mattlin was introduced as the new RL Unit Manager for the 300 Area Solvent Evaporator (300 ASE) closure.

**2. Status Prior Action Items:**

- 5-04-93:1 WHC and RL will submit a petition requesting approval of the sonification procedure for the determination of volatile organics in concrete by following the guidelines in WAC 173-303-110(5).

WHC (A. L. Prignano) reported that WHC recently performed some additional experiments on the sonification procedure. In these experiments, WHC tried to produce a standard to use in testing the procedure. Based on the results of the experiments and a subsequent meeting between RL and WHC chemists, it was decided to write up the results. However, there is still some concern on the ability to produce a concrete standard. RL and WHC will prepare a letter informing Ecology of the procedure and the results of these experiments. The general consensus between the RL and WHC chemists is that this procedure should be useful in decision-making purposes for this RCRA closure activity.

**3. Status Closure Activities**

WHC (A. L. Prignano) noted that a letter notifying Ecology that closure activities have begun is in WHC review and sign-off. The letter will be issued as is required by the Hanford Facility Dangerous Waste Permit.

RL (R. N. Krekel) reported that the soil characterization report for the 300 ASE was issued by RL in early September 1994. Ecology (R. E. Cordts) hasn't yet received a copy. RL will verify that the report was sent. If it is not received soon, Ecology should contact RL (R. N. Krekel) or WHC (A. L. Prignano).

**4. New Business**

No additional new business was discussed.

**5. Set Next Meeting Date**

The next meeting is set for October 25, 1994, at 3:00 p.m. in Richland.
