**4. INFORMATION ITEMS:**

- **Introductions** - Paul Pak introduced Donna Wanek as the RL project manager for the 200 East area and Jennifer Young as the RL project manager for the 200 West area, Joe Zoghbi is the new Bechtel 200 Areas manager.
- **Status of Activities for 200-BP-1** - Mark Buckmaster presented the status of activities for the 200-BP-1 Operable Unit (see Attachment #3). Additional information is noted below:
- **Modified RCRA Barrier** - Paul Beaver indicated he has provided the equivalency guide in response to Action Item 2BP1.56, however, he still requires written justification for the reduction in thickness of the layers of the Modified RCRA Barrier. This document should demonstrate that no significant change in performance results from a thinning of the layers of the barrier. A meeting was scheduled for Wednesday August 3, 1994, 10:00 at 450 Hills to further discuss this issue. Attendees to be Donna Wanek, Joe Zoghbi, Paul Beaver, Nancy Uziemblo and Norm Hepner.
- **Proposed Plan** - Paul Beaver indicated that the public comment schedule had not been set, pending internal briefings which are currently being scheduled. He noted that copies of the proposed plan had been received by the Department of Health and the Yakama Indian Nation, the latter having already provided him with comments. P. Beaver also noted that he would provide specific language about the barrier over the B-57 Crib to be included in the plan. Paul Pak indicated that the delay in setting the public review cycle would impact the schedule and budget, and he would prepare a letter from RL to EPA to that effect.
- **Next Meetings** - The next Unit Manager's Meetings are scheduled for August 24 and 25, 1994.
