Mr. Roger F. Stanley  
Program Manager  
State of Washington  
Department of Ecology  
Mail Stop PV-11  
Olympia, WA 98504-8711

Dear Mr. Stanley:

**SIMULATED HIGH-LEVEL WASTE SLURRY TREATMENT AND STORAGE (SHLWS T/S) UNIT CLOSURE PLAN REFERENCE**

On October 3, 1989, during a Unit Managers' Meeting, Mr. Mike Gordon of your staff requested a document which was referenced in the Simulated High-Level Waste Slurry Treatment and Storage (SHLWS T/S) Unit Closure Plan. Enclosed is a microfiche copy of the most recent version of that document (Watson, E. C., et al., 1984, Environmental Characterization: Two Potential Locations on Hanford Site for a New Production Reactor, PNL 5275, Battelle, Pacific Northwest Laboratories, Richland, Washington). The material cited in the SHLWS T/S Unit Closure Plan is provided in Appendix A, Table A.4, of PNL 5275. 39730

Should you have any questions, please contact D. L. Duncan of the Department of Energy, Richland Operations Office on (509) 376-9333, or H. W. Slater of Pacific Northwest Laboratory on (509) 376-0575.

Sincerely,

Roger D. Freeberg  
Hanford Project Manager
