June 27, 1994

Mr. Patrick Willison
U.S. Department of Energy
P.O. Box 550
Richland, WA 99352

Dear Mr. Willison:

Re: Notice of Deficiency for the 242-A Evaporator

The supplementary Notice of Deficiency (NOD) comments for the 242-A Evaporator are enclosed. The enclosed NOD comments consist mostly of technical observations dealing with the information in the Part B Permit application. A complete review was deemed inappropriate at this time for two reasons: 1) the permit application that was reviewed was seriously dated (June 1991) and conditions have changed considerably since then (see General Comments 1 and 4 on the first page of the NOD comments), and 2) the Washington State Department of Ecology (Ecology) has requested that the Part B Permits for the 242-A Evaporator, 200 Area Effluent Treatment Facility, and 200 Area Liquid Effluent Treatment Facility be combined into a single application. Therefore a more complete review would be appropriate when the next revision is issued.

If you have any questions, please call me at (509) 736-3018.

Sincerely,

Alex Stone, Unit Manager
Nuclear Waste Program
