

October 8, 1992

Eric Goller  
U.S. Department of Energy  
P.O. Box 550 A5-15  
Richland, WA 99352

Dear Mr. Goller:

The U.S. Environmental Protection Agency received transmittal of the U.S. Department of Energy's document DOE/RL-92-64, Revision 0; entitled Estimating Aquifer Hydraulic Properties Using the Ferris Method, Hanford Site, Washington on September 28, 1992. This is a secondary document used to satisfy the M-30-04 milestone of the Tri-Party Agreement.

We are reviewing this document but project that we will not be able to complete this review within the standard 45-day review period. We are requesting a 13 day extension to this review period. We intend to have our review completed and transmitted to the U.S. Department of Energy by November 25.

We hope that you can accommodate our request for this extension. If you have any questions, please contact me at (509) 376-9884.

Sincerely,  
*Laurence E. Gadbois*
