December 2, 1993

Mr. Steven H. Wisness  
U.S. Department of Energy  
P.O. Box 550 MSIN: A5-15  
Richland, WA 99352-0550

Dear Mr. Wisness:

Re: 224-T Transuranic Storage and Assay Facility RCRA Part B Permit  
Application (Milestone M-20-23, Group S-2-2)

30351

An anticipated issuance date of December 1, 1993, for the first Notice of Deficiencies (NOD) for the above referenced application was transmitted in our letter of October 4, 1993. Prior to issuance of the first NOD, I requested that an inspection be performed to assist me during the initial review of the application. Due to the time required to conduct the inspection and the related follow-up, the NOD could not be issued as anticipated. In addition, a peer review of the draft NOD has been requested and is expected to require two weeks to obtain. Therefore, I now anticipate issuance of the NOD by January 21, 1994.

If you or your staff have any questions regarding this modified issuance schedule, please call me at (509) 736-3034.

Sincerely,

Alisa D. Huckaby
