Kennewick

Dear Mr. Bauer:

On December 9, 1993 my staff performed a joint inspection with Washington State Department of Ecology of the 224T TRUSAF Building.

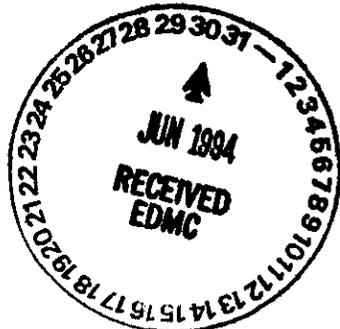

The scope of this inspection pertained to the air ventilation and filtration system. We invited Ecology's Alisa Huckaby to participate because of their current involvement with the RCRA permitting of the facility.

The staff at 224T, especially the engineer leading the inspection, were extremely helpful and knowledgeable. No items were found to be out of compliance.

If you have any questions, please do not hesitate to call me or Randy Acselrod (206) 586-8950 of my staff.

Sincerely,

Allen W. Conklin
