Mr. Douglas R. Sherwood
Hanford Project Manager
U.S. Environmental Protection Agency
712 Swift Boulevard, Suite 5
Richland, Washington 99352

Dear Messrs. Nylander and Sherwood:

SAMPLING AND ANALYSIS OF 100 AREA SPRINGS, REVISION 1 (DOE/RL-92-12)

The U.S. Department of Energy, Richland Operations Office (RL), is submitting the subject document to the U.S. Environmental Protection Agency (EPA) and the State of Washington Department of Ecology (Ecology) for information only. This submittal is in response to EPA's request for official transmittal of the document, and to address EPA's concern that the subject document is not available in the Hanford Federal Facility Agreement and Consent Order administrative record.

RL agreed to produce "Sampling and Analysis of 100 Area Springs" Rev. 1, in response to EPA's comments on Rev. 0 of the same document. The subject document incorporates RL's resolution of regulator comments on Rev. 0 as agreed in April 1992 by the 100 Area operable unit management leads for RL, EPA, and Ecology. RL provided the subject document (Rev. 1) to EPA and Ecology in May 1992. Over the past two years since publication in May 1992, Rev. 1 has received wide distribution to other federal, state, and local government agencies and interested public on request. The Westinghouse Hanford Company personnel logged the subject document into the Administrative Record on July 2, 1992, and its identification number is 21727.

Please address any comments or questions regarding this correspondence to Mr. Eric Goller on (509) 376-7326.

Sincerely

Handwritten signature of Patrick W. Willison

Patrick W. Willison
Acting Hanford Project Manager

Record Note: This letter transmits Sampling and Analysis of 100 Area Springs rev. 1 (DOE/RL-92-12), a Tri-Party Agreement secondary document, to EPA and Ecology per EPA's request for a letter of transmittal. Copies of the subject document were provided to EPA and Ecology 100 Area Operable Unit Managers in May 1992 when it was published. Over the past two years, the document has been transmitted to other government agencies (ie DOI, NPS, and Fish and Wildlife Service) and public advocacy groups (ie Heart of America and Columbia River United). The subject document is a modification to rev. 0 due to reporting of erroneous lab analyses of Total Uranium in rev. 0. RL 100 Area OU lead - Eric Goller, WHC ER Programs/100 Areas Manager - Jim Patterson, WHC 100 Areas RI/FS Manager - Bob Henckel, and WHC POC on subject document - Steve Weiss. EPA 100 Area River Lead - Larry Gadbois, and Ecology 100 Area Lead - Jack Donnelly.
