Summary of Discussion and Commitments/Agreements

2. Status of Action Items

- NONE

3. Status Closure Activities

- Data Evaluation Report (DER)

WHC (Mr. S. N. Luke) reported that RCRA Closures had recently received the equivalent concentrations (EC) determination from WHC Acceptance Services. WHC explained that an EC determination calculates the worst-case potential for inorganics and anions at the site to pair up and form a regulated compound. It was also conveyed that the report qualified its own results as not necessarily representing actual site conditions. For various reasons (i.e., background constituent concentrations, the minimal potential of unit soils to designate under EC worst-case conditions, and the qualification of the EC report results) the report results will likely be dismissed within the DER as an unproven and unlikely potential only. When the DER is completed it will be transmitted to RL for review and concurrence prior to submittal to Ecology.

- Closure Plan, Revision 3A, Page Changes

WHC (Mr. S. N. Luke) indicated that Revision 3A page changes are currently being distributed to Ecology and other holders of the 2727-S Closure Plan.

4. New Business:
