Dear Messrs. Sherwood and Nylander:

NOTIFICATION OF COMPLETION OF HANFORD FEDERAL FACILITY AGREEMENT AND CONSENT ORDER MILESTONE M-32-07-T01

This letter provides formal notification of closure for Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement) Milestone M-32-07-T01, having a scheduled completion date of April 1994, which states:

"Identify additional dangerous waste tanks and ancillary equipment that will be routinely used during cleanout and stabilization activities. Submit schedule to perform integrity assessments on identified additional dangerous waste tanks and ancillary equipment.

B Plant will not accept any waste for treatment, except waste generated as a result of on-going B Plant/WESF operations, without completion of tank integrity assessments and completion of upgrades necessary for compliance with WAC 173-303-640 or an applicable permit on systems used for the treatment, storage or disposal of the waste."

After careful evaluation, no additional dangerous waste tanks, other than those identified in M-32-07-T02, have been identified for routine use during cleanout and stabilization activities. No further actions are required by this milestone.
