Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes.

A draft of the August 11, 1993 UMM minutes was received by Ecology. The draft version was verbally approved by Ecology and will be signed as soon as possible. August minutes were signed by WHC and the RL unit manager.

2. Status of Action Items
- NONE

3. Status Closure Activities
- Data Evaluation Report

WHC (Mr. S. N. Luke) indicated that the timeframe for submittal to Ecology of a report evaluating 2727-S sample results has slipped slightly. The timeframe slippage is due to WHC having identified a need to perform an equivalent concentration designation. An equivalent concentration designation is performed due to a potential for anions to combine with other substances and possibly form regulated compounds. The equivalency designation process is performed by WHC Acceptance Services which uses a computer program to compare 2727-S anion concentrations with other 2727-S analyte concentrations. The process is not expected to greatly delay issuance of the report.

- Transmittal of Sample B07555 Inorganics Reanalysis

Ecology (Mr. R. E. Cordts) confirmed receipt of copies of the laboratory reanalysis of sample B07555 inorganics. WHC (Mr. S. N. Luke) indicated that a letter from RL confirming the data transmittal is being generated.

- Closure Plan, Revision 3A, Page Changes

WHC (Mr. S. N. Luke) indicated that Revision 3A page changes to the 2727-S closure plan, that were discussed in the August UMM, have not as yet been transmitted. The page changes will be issued as soon as concerns regarding how closure plans that are a part of the sitewide permit will be revised.
