Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes

The May 11, 1993 meeting minutes will be sent to Ecology (S. E. McKinney) for review. The June 1993 Unit Managers Meeting was not held.

2. Status Action Items

- No open action items.

3. Status Closure Activities

- Status of Ecology NOD review

Ecology (S. E. McKinney) stated that a formal review and reply to the NOD Response Table would not be completed. Ecology stated that the few remaining issues, primarily soil clean-up and RCRA/CERCLA integration, have basically been resolved in past Unit Managers Meetings (UMM). For the intended actions, see "Status of Ecology letter on Closure Plan Revision."

- Status of Ecology letter on Closure Plan Revision

Ecology (S. E. McKinney) stated that a letter would be issued authorizing the revision of the closure plan to incorporate the outstanding NOD comments. Ecology expects to issue this letter during August.

When asked what changes were expected, WHC (J. G. Adler) stated that most were related to soil clean-up standards and RCRA/CERCLA integration. However, there were still a few other minor changes to be made (e.g., typographical errors, changes to the inorganic analysis of concrete, etc.).

- Status of Concretion Work

The letter sent from DOE-RL to Ecology to resolve the management of pyrophoric materials issue was discussed. This letter was issued on July 22, 1993 and, at the time of this meeting, is being transmitted to Ecology. This letter provides a position and requests concurrence on managing pyrophoric materials (i.e., removing chips and fines from equipment) at the Hanford site relative to EPA "hazardous debris

rule." The RL position is that the removal of this material does not constitute treatment. Ecology (S. E. McKinney) stated that he felt that removal of pyrophoric material from equipment was more appropriately waste generation rather than waste treatment. Ecology also stated that a formal response to the letter is needed to resolve the issue. All parties are now waiting for Ecology to respond to the letter.

4. **New Business**

- None.

5. **Set Next Meeting Date**

The next meeting has been set for Tuesday, August 24, 1993, in Richland, Washington. It is intended to hold this meeting via video teleconference.
