Mr. Douglas R. Sherwood
Acting Hanford Project Manager
U.S. Environmental Protection Agency
712 Swift Boulevard, Suite 5
Richland, Washington 99352

Mr. Roger F. Stanley, Director
Tri-Party Agreement Implementation
State of Washington
Department of Ecology
P.O. Box 47600
Olympia, Washington 98504-7600

Dear Messrs. Sherwood and Stanley:

SUBMITTAL OF DRAFT A, INTERIM REMEDIAL MEASURES (IRM) PROPOSED PLAN FOR THE
200-ZP-1 OPERABLE UNIT (OU [DOE/RL-93-68]) 21353

Please find enclosed the subject document for the regulatory review.
Submittal of this primary document by September 30, 1993, fulfills Hanford
Federal Facility Agreement and Consent Order interim milestone M-13-04.

This draft is based on the recommendations of: 1) the 200 West Groundwater
Aggregate Area Management Study Report (DOE/RL-92-16, Revision 0); 2) the 26309
agreement in principle documented in the 200 Area National Priority List
Agreement/Change Control Form, Number 1, dated July 7, 1993; and -
3) information gained through the ongoing 200 West Area Carbon Tetrachloride
Expedited Response Action. The plan is designed to implement DOE/RL-91-04,
"Hanford Site Past-Practice Strategy," (March 1992), through the use of IRM
for the carbon tetrachloride, trichloroethylene, and chloroform groundwater
plume.

The U.S. Department of Energy (DOE) has independently evaluated the IRM
activities associated with the Proposed Plan under the National Environmental
Policy Act and is recommending that an Environmental Assessment (EA) be
prepared. Consistent with DOE policy and the direction of Congress, this EA
would be integrated into the IRM Proposed Plan.

If you have any questions regarding this IRM proposed plan, please contact
Mr. P. M. Pak at (509) 376-4798.

Sincerely,

[Handwritten signature]

Steven H. Wisness
Hanford Project Manager
