Dear Messrs. Hofer and Stanley:

TRANSMITTAL OF THE 200 NORTH SOURCE AGGREGATE AREA MANAGEMENT STUDY REPORT (AAMSR), REVISION 0

This letter transmits the Revision 0, 200 North Source AAMSR to the U.S. Environmental Protection Agency (EPA) and the State of Washington Department of Ecology (Ecology).

The 200 North AAMSR was prepared as a secondary document in accordance with the objectives of the Hanford Past Practice Strategy (DOE/RL-91-04) and the methodology and format for the AAMSR presented in AAMSR Chapter 1, which was submitted as interim milestone M-27-01.

The U.S. Department of Energy, Richland Operations Office (RL) transmitted the Draft A, 200 North AAMSR for review and comment by EPA and Ecology on August 31, 1992. RL received EPA and Ecology's comments on October 15, 1992, and provided their dispositions on November 16, 1992. At a comment resolution meeting that occurred on November 30, 1992, to further discuss RL's dispositions, all of the regulators' comments have been satisfactorily resolved with minor text changes.

Since the 200 North Draft A was prepared while reformulating the redlined Draft B of other source AAMSRs, the 200 North Draft A included: 1) finalized generic text based on U, Z, S, and T AAMSRs regulator comments, 2) reduced Section 2.3.2 repetitive text regarding Single Shell Tanks, 3) a generic physical conceptual model in Section 4.0, 4) implementation of the analogous site concept in Section 9.0, 5) a summary of physical and chemical setting for analogous groupings in Section 9.0, and 6) minor changes as a result of Westinghouse Hanford Company technical editing. These changes were reviewed in the U Plant Draft B by the regulators and finalized based on the September 1, 1992, U Plant Draft B and the September 24, 1992, Past Practice Unit Managers' meetings. They have been applied to all AAMSR including the 200 North, Revision 0.

This Revision 0 includes complete dispositions to EPA and Ecology's comments on the Draft A, and minor technical editing changes.

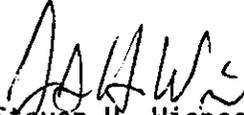

Messrs. Hofer and Stanley
93-ERB-196
