Summary of Discussion and Commitments/Agreements

1. Approval of Past UMM Minutes

Project Managers Meeting minutes for January 18, 1996 and for February 29, 1996 have been reviewed, approved and issued.

RL/WHC and Ecology agreed not to hold a Project Managers Meeting during March 1996.

2. Status Action Items

None.

3. Status of Sampling and Analysis Activities

- Status of Sampling and Analysis Activities

WHC (F. A. Ruck III) stated that the data evaluation report for the soil sampling has been sent to Ecology. Ecology (S. E. McKinney) acknowledged receipt.

- Status of Decontamination Activities

WHC (F. A. Ruck III) stated that all closure activities had been completed on March 15, 1996. Also, the final report has been completed and is in the transmittal process. It should be sent to Ecology by May 10, 1996.

WHC stated that professional engineer's (PE) certification is schedule for completion by May 15. The PE certification and the WHC/RL certifications should be transmitted to Ecology by June 12, 1996.

Ecology had visited the unit on March 26, 1996. Ecology (S. E. McKinney) stated that, pending review of the final report and certification statements, Ecology was satisfied with the results of the closure activities.

RL (E. M. Mattlin), WHC, and Ecology noted that there are no outstanding issues or concerns that would prevent meeting the clean closure requirements for the 105-DR LSFF.

- Status of Future Meetings

RL (E. M. Mattlin), WHC (F. A. Ruck), and Ecology (S. E. McKinney) agreed that, with the closure activities completed and clean closure imminent, no additional meetings are required. This will be the last Project Manager's Meeting held for the partial clean closure of the 105-DR Large Sodium Fire Facility.

Note that RL/WHC or Ecology can still call a meeting if the circumstances require.

4. New Business

None.

5. Summary of Actions/Decisions

No numbered action items were assigned at this meeting.

6. Set Next Meeting Date

No additional meetings will be held.
