Mr. R.D. Izatt, Deputy Assistant Manager  
Environmental Affairs  
U. S. Department of Energy  
P.O. Box 550  
Richland, WA 99352

Dear Mr. Izatt:

Re: Completion of Milestones M-17-18A and M-17-18B

Thank you for the assistance of United States Department of Energy Richland Office (USDOE-RL) and Westinghouse Hanford Company (WHC) personnel during the Milestone 17 verification at the 242-S Evaporator and the 216-U-14 Ditch. An inspection was conducted on December 11, 1992, to verify completion of Hanford Federal Facility Agreement and Consent Order Number DE-91NM-177 (HFFACO) for Milestones M-17-18A, M-17-18B, and related items.

USDOE-RL/WHC documentation indicates Milestone M-17-18A was completed on September 30, 1991. Based on Ecology representative's observations and flowrate check, it appears that this milestone was met.

USDOE-RL/WHC documentation indicates Milestone M-17-18B was completed on September 30, 1992. Ecology representatives verified that the air sample pump was disconnected, therefore eliminating the seal water contribution. It appears that the intent of this milestone was met.

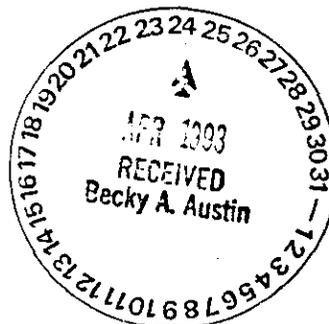

If you have any questions about this letter, please call me at (509) 736-3021.

Sincerely,

*Melodie A. Selby*
