2727-S Nonradioactive Dangerous Waste Storage Facility Closure Plan  
Unit Managers Meeting  
Meeting Held January 5, 1993

Summary of Discussion

Review, Amend, Approve and Distribute Prior Meeting Minutes: Final 2727-S Non-Radioactive Dangerous Waste Storage Facility (NRDWSF) Unit Manager Meeting minutes for October, 1992 were reviewed, approved, and signed by the Unit Managers. November, 1992 draft Unit Manager Meeting minutes were given to Mr. Cordts for his review. No Unit Manager Meeting was held in December, 1992 by mutual consent of the Unit Managers.

Closure Activities Status: Validated data from WHC Hanford Analytical Services Management (HASM) group is expected by January 18, 1993. Based upon the validated data, a sampling report will be issued by WHC which will organize results and flag values in excess of action levels. Any data in excess of action levels will be evaluated in a report prepared by WHC and issued sometime in February of 1993. As it arrives, validated data from HASM will be copied by WHC and sent to Mr. Cordts (Ecology).

Action Items:

1-5-93:1 WHC will transmit copies of the validated 2727-S Non-radioactive Dangerous Waste Storage Facility sample data to Ecology and RL as it arrives from WHC's Hanford Analytical Services Management group.

A letter from WHC is in process which will notify Ecology and RL about measures taken by WHC to notify the 200W Area 200-RO-3, CERCLA Operable Unit and the Waste Identification Data System (WIDS) about the existence of non-RCRA concrete structures containing pipes at the 2727-S demolition site for further evaluation.

WHC (Ruck) indicated that a discussion of Data Quality Objectives (DQOs) will be conducted sometime in February, 1993 but not necessarily during the 2727-S UMM.

Ecology (Cordts) asked if there was an exact date that material was cleared from the site and shipped. WHC (Ruck) indicated that a memo will be sent to Ecology giving dates that debris (concrete, pipe) was shipped to the Grassy Mountain Utah landfill, and, a current description of debris remaining on site.

Action Items:

1-5-93:2 RL/WHC will give Ecology information on debris shipped offsite from 2727-S Non-radioactive Dangerous Waste Storage Facility during demolition and a current description of debris remaining onsite.

New Business: There were no new items of business. The next Unit Managers Meeting is scheduled for February 2, 1993, in Richland, Washington.
