August 15, 1996

Mr. Glenn Goldberg
U. S. Department of Energy
P. O. Box 550, MSIN: H4-83
Richland, WA 99352

Dear Mr. Goldberg:

Re: Ecology Approval of *Sampling and Analysis Plan for the 100-D Ponds Voluntary Remediation Project* (DOE/RL-96-43, Rev. 0)

The Washington State Department of Ecology (Ecology) approves the *Sampling and Analysis Plan for the 100-D Ponds Voluntary Remediation Project* (DOE/RL-96-43, Rev. 0) contingent upon U.S. Department of Energy (USDOE) formally accepting and addressing the following comments:

- Table 2-2 must be revised to reflect the approach being taken for protecting groundwater in Table 2-7 of the *Remedial Design Report/Remedial Action Work Plan for the 100 Area* (DOE/RL-96-17, Rev. 0), and
- Eliminate any references to Section 2.6.

Ecology expects USDOE to revise this document accordingly, upon concurrence and response to the bulleted comments, to support near-surface verification sampling after the voluntary removal action.

If you have any questions or need clarification on Ecology's comments, please feel free to call me at (509) 736-3036.

Sincerely,

Keith K. Holliday
100-D Area Project Manager
