Dear Messrs. Rasmussen and Adair:

Re: Part A Submittal for the 204-AR Waste Unloading Facility

The Washington State Department of Ecology (Ecology) has received and reviewed the 204-AR Waste Unloading Facility Part A, Revision 4, dated October 1, 1996. This revision was submitted in fulfillment of WAC 173-303-805(7)(a)(iv).

Major changes noted in the Summary of Changes include removal of Dangerous Waste number WC02, per the revised WAC 173-303, and revised text to better reflect current operations.

Ecology finds the submittal to be accurate and complete; therefore, approval of the 204-AR Waste Unloading Facility, Revision 4, is granted.

If you have any questions or comments, please contact me at (509) 736-3038.

Sincerely,
