Change Title  
**Change Operable Unit 100-IU-5 Lead Regulatory Agency Designation From Ecology to EPA**

**Description/Justification of Change**

During the development of the Sixth Amendment to the Hanford Federal Facility Agreement and Consent Order (Agreement) the lead regulatory agency was established for each Operable Unit contained within Appendix C of the Agreement. These designations were made to support the new lead regulatory agency concept implemented by Amendment Six which was approved in February 1996. During the process the State of Washington Department of Ecology (Ecology) was initially assigned as lead regulatory agency for Operable Unit 100-IU-5.

Since the approval of Amendment Six it has been determined by the U. S. Environmental Protection Agency (EPA) and Ecology that lead regulatory agency responsibility for Operable Unit 100-IU-5 should more appropriately be assigned to the EPA.

This change request therefore makes the following change to Appendix C of the Agreement:

<u>Priority</u>	<u>Operable Unit</u>	<u>Title of Units</u>	<u>Unit Type</u>	<u>Lead Regulatory Agency</u>	<u>Unit Category</u>
D	100-IU-5	White Bluffs Pickling Acid	Crib	Ecology <del>Ecology</del> EPA	

Note: Struckout text indicates text to be removed and shaded text indicates text to be added to the Agreement.

**Impact of Change**

There is no impact to any activities under the terms of the Agreement due to this change in lead regulatory agency for Operable Unit 100-IU-5.

**Affected Documents**

Hanford Federal Facility Agreement and Consent Order, Appendix C.
